THE ADVANTAGES OF CERTIFICATION

Tested compatibility and usability

Stringent certification requirements mean that qualifying solutions have passed rigorous independent testing in a variety of areas, including compatibility with one of the Microsoft Dynamics product lines, backup and restore capability, extensibility, upgrade ease, and user assistance and documentation.

Peace of mind from the experiences of other satisfied customers

When you choose a Certified for Microsoft Dynamics solution, you can feel confident that both the solution and its provider will work hard to meet your every need. Other satisfied customers with currently deployed solutions have provided recommendations about actual implementations in real-world conditions.

Simplified search for the solution that is right for you

You can find certified solutions quickly using Microsoft Dynamics Partner Solution Finder. SETTING A STANDARD FOR PARTNER SOFTWARE SOLUTIONS

Certified for Microsoft Dynamics software solutions have met these key criteria:

PRODUCT-SPECIFIC CERTIFICATION

A Certified for Microsoft Dynamics solution earns its status based on a compatibility with a specific Microsoft Dynamics product. These products include:

- Microsoft Dynamics AX
- Microsoft Dynamics GP
- Microsoft Dynamics NAV
- Microsoft Dynamics SL
- Microsoft Dynamics CRM

Customers who choose a Certified for Microsoft Dynamics solution can implement it with confidence in the compatibility and usability of the software and the commitment of the solution provider.

The reassurance from other active customers made us feel confident that the Certified for Microsoft Dynamics solution would help us meet our business challenges.
